

FOCUS GROUP STUDY SEEKS PARTICIPANTS

Tioga County Residents

Have you experienced flooding or drought?

Do you rely on water resource and flood forecasts for decision making?

Nurture Nature Center is recruiting participants for focus groups, as part of a research project with the National Oceanic and Atmospheric Administration, about the use of National Weather Service flood forecast and warning tools.

Participants will be asked to answer questions and provide input about various flood warning tools and products issued by the National Weather Service.

Your participation in these focus groups will be valuable in developing useful, easy-to-understand river products.

Participants should live or work in the Tioga County Area and be at least 18 years of age. Each participant will receive \$50 for their time and input. Light refreshments will be provided.

**Wednesday, April 24, 2019,
6:30 pm - 8:30 pm**

Owego Treadway Inn & Conference Center
1100 NY-17C, Owego, NY

For more information on this focus group session, please see www.focusonfloods.org or contact Rachel Hogan Carr at rhogan@nurturenature.org

The Nurture Nature Center is a non-profit organization whose focus is on flood education.
